

Jai Anklesaria

UX Analyst / Product Designer

jaianklesaria.jobs@gmail.com | jaisuxportfolio.netlify.app/ | linkedin.com/in/jaiuxdesigner |

Professional Summary

UX Analyst and Product Designer with 2+ years of full-time experience (plus freelance work since 2021) translating user behaviour data and research insights into evidence-led digital product decisions. MSc in Human-Computer Interaction from the University of Nottingham, specialising in user research, analytics, accessibility, and data visualisation. Experienced in interpreting behavioural datasets, synthesising qualitative and quantitative research, and communicating findings through clear reports and visualisations for multidisciplinary teams and non-technical stakeholders alike. Skilled in WCAG 2.1 AA compliance, usability testing, and data-informed design across healthcare, SaaS, and B2B environments. Strong cross-functional collaborator with Digital Engagement, Product, and Engineering teams in Agile environments.

Work Experience

Product Designer (UX & Research), Asentech LLC — (Healthcare / Pharma UX · UK) June 2025 - Present

- Designed user-centred UI/UX experiences for internal and customer-facing healthcare and pharmaceutical platforms, balancing usability, compliance requirements, and brand consistency
- Developed digital and print omnichannel assets aligned with pharmaceutical branding and MLR compliance requirements, maintaining consistent visual communication across touchpoints
- Contributed to the internal design system by creating reusable components and patterns, improving design consistency and reducing design-to-development gaps
- Collaborated closely with developers, QA, and stakeholders to validate designs, address implementation constraints, and deliver production-ready experiences within tight timelines

Product Designer (Research & UX), University of Nottingham × KPMG — August 2023 - February 2024 (MSc Industry Placement · UK)

- Conducted 25+ user interviews and synthesised insights from 100+ eye-tracking and heatmap datasets to define product requirements and validate interaction models; translated findings into stakeholder-facing visualisations and reports to inform prioritisation
- Owned end-to-end UX and interface design for an AR data-visualisation mobile application (iOS Android), collaborating with product and engineering to translate requirements into 30+ user flows, journey maps, and wireframes
- Shipped high-fidelity prototypes through iterative usability and A/B testing cycles, improving task success rate by 31% and raising product quality score by 22% ahead of go-to-market launch; communicated results via clear visual narratives for stakeholders
- Delivered stakeholder presentations, design system documentation, and dev-ready handoff materials, contributing to 30% faster onboarding and clearer alignment between design and engineering

Product Designer 1, Mobile First Application (AI-native Software Studio) – June 2022 - October 2022 Mumbai, India

- Conducted 30+ user surveys and interviews to uncover behavioural and attitudinal insights, structuring findings in Google Sheets and Notion to inform content and interaction hypotheses
- Owned a complex multi-drop logistics feature end-to-end, from discovery through stakeholder validation, increasing user satisfaction by 66% and reducing navigation errors by 20%
- Built rapid prototypes and high-fidelity mockups; led validation sprints with stakeholders to align interfaces with business requirements and front-end constraints

Junior Product Designer, Swabhav Techlabs (Internship) – Mumbai, India January 2021 - June 2022

- Led ethnographic research and moderated usability sessions with 30+ parents for Growthbook, translating insights into accessible, confidence-first interfaces that increased customer retention by 45% and boosted feature adoption

- Designed and executed end-to-end usability tests (participant recruitment, task design, moderation, analysis), generating actionable insights on retention and feature performance
- Implemented research-driven UI changes across key user journeys, collaborating with agile front-end teams to deliver production-ready interfaces meeting WCAG 2.1 AA accessibility standards
- Collaborated closely with agile front-end development teams to ensure design feasibility and applied strong technical and communication skills to deliver production-ready interfaces aligned with development constraints

Product Designer (Freelance / Contract),– Mumbai, India/ Nottingham, UK January 2021 - Present

- Led an independent ethnographic UX research study on online grocery shopping behaviour, combining contextual inquiry and diary-study methods across 48 hours of in-home fieldwork and semi-structured interviews to uncover key behavioural drivers (inventory-first checking, perishables urgency, deal sensitivity) informing digital journey recommendations
- Redesigned a legacy POS system from conducting research to delivery, contextual research, wireframes and validated prototypes, improving usability scores by 28 %
- Redesigned the Neon Rapter brewery website end-to-end, from research through Figma design to deployment (Netlify + Supabase), building responsive layouts with HTML5 and CSS

Core Skills

- **Product Design & UX:** End-to-end product design, human-centred design, ideation & concept development, wireframing & sketching, storyboarding, survey design, visual / UI design, typography & colour systems, design rationale & critique, data-driven design decisions, systems thinking
- **Research techniques & Analytics Tools:** Google Analytics 4, Google Tag Manager, Power BI, Mixpanel, Amplitude, digital & web analytics, product metrics & KPIs, funnel & retention analysis, data visualisation, user interviews & surveys, moderated & unmoderated usability testing, ethnographic & contextual research, eye-tracking & heatmap analysis, quantitative & qualitative research methods, affinity mapping, journey mapping, user flows & task analysis, competitive & heuristic analysis (heuristic evaluation), JTBD framework, research synthesis & storytelling, focus groups, stakeholder engagement, business & behavioural analysis, market research
- **Accessibility & Design Systems:** WCAG 2.1 AA accessibility design & auditing, inclusive design, information architecture, interaction design, wireframing & prototyping (low-high fidelity), design systems (creation& governance), Figma variables & design tokens, mobile design (iOS HIG, Material Design 3), A/B testing, product analytics
- **Design Tools & Prototyping:** Figma (advanced components, variables, dev mode), Adobe xd (Photoshop, video editing, Adobe illustrator, InDesign, Canva), Axure, ProtoPie, Unity 3D, InVision, Miro, FigJam, Maze, Notion, JIRA. Slack, Product development
- **AI Automation & Vibe coding (Supporting Skills):** AI-native workflows & prompt engineering, Vibe coding (Figma Make, v0, Cursor, claude code, google stich), Designing for AI products & conversational UI, Workflow automation (n8n), Claude Code, Google Stitch, AI-assisted research synthesis, AR/MR design (mixed reality systems), Machine learning fundamentals (applied), SQL, Front-end development
- **Programming (Working Knowledge):** HTML5, CSS, Python, Javascript, Git/GitHub, APIs (REST), Front-end development, REST APIs

Education

MSc in Human-Computer Interaction, 2:1, University of Nottingham Sept 2022 – Sept 2023

- Focus on user research, human factors, interaction design, and mixed-reality systems
- **Core Modules:** Ethnography, Advanced methods in human factors & HCI, Mixed reality, Cognitive Ergonomics.

BSc in Computer Application, (Merit), University of Pune July 2019 – June 2021

- Strong foundation in Computer Science, product development, and applied AI
- **Core Modules:** Artificial Intelligence, Android App development, project management.

Leadership & Recognition

Scholarship: Postgraduate Excellence Award recipient from the University of Nottingham (1% acceptance rate)

International Student Ambassador: led campus tours of 20+ and held talks to promote the university

State-level Swimmer: Represented the state of Maharashtra in 20 events, achieving 3 medals
